## **DETAILED ACTION**

### ***Response to Applicant's Preliminary Amendment***

This Office Action is in response to applicant's preliminary amendment filed on March 18, 2004. Claims 1-8 and 10-22 have been cancelled. Claims 22-29 are newly added claims, rendering claims 9 and 22-29 pending.

### ***Claim Objections***

Claim 22 objected to because currently it depends from claim 10 which has already been cancelled. For the purpose of this Office Action, claim 22 is not being treated on the merit since the contents in claim 22 appears to direct toward a different embodiment.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 9, 23, 24, 26, and 27 are rejected under 35 U.S.C. 102(b) as being anticipated by Johnson (U.S. Patent No. 5,201,327). Johnson discloses in Figures 1-5 a male conductive condom (10) comprising elements as recited in these claims including an elastic sheath (12) and microscopic conductive material (20) embedded in material (18) of the sheath. Figure 4 and 5 illustrate the condom (10) further comprising a rib formed at the open end of the condom (10).

***Allowable Subject Matter***

Claims 25, 28, and 29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
